Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. This application has been examined. The amendment filed 6/06 has been entered.

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 68-71 are rejected under 35 U.S.C. 102(e) as being anticipated by Reisman (6594692).

4. Regarding claim 68, Reisman shows: a text based interface layer to a combined text based interface generator (para 15, 22, 40), an SNMP agent with direct access to configuration data (para 298), an HTTP server (para 35, 100, 214) and SNMP manager only accessing configuration data by communicating with the SNMP agent (para 28, 33, 342), a combined text interface generator and HTTP client only accessing

configuration data by requesting the HTTP server and SNMP manager to communicate with the SNMP agent (para 341-342).

5. Regarding claim 69, the SNMP manager may reside in a different access device than the SNMP agent and configuration data (Figures 1, 6)

6. Regarding claim 70, the SNMP manager, and SNMP agent and configuration data may reside in the same access device (para 214).

7. Regarding claim 71, in addition to that mentioned for claim 68, note the messaging in HTTP in response to a change in the configuration data by user input (para 337-339).

8. Claims 72-77 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

9. Claims 39, 40, 50-53, 63-67 are allowable over the prior art of record. These claims bring out the layer interaction and messaging details as well as security enablements, with the layers all residing on the same device.

10. Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection.

11. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Steven P. Sax whose telephone number is (571) 272-4072. The examiner can normally be reached on Monday thru Friday, 8:30 AM - 5:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Kristine Kincaid can be reached on (571) 272-4063. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
